Hiring Team

Stryker

SUBJECT: Application for Project Manager, ASC (Remote) at Stryker

Dear Stryker Hiring Team,

I am writing to express my keen interest in the Project Manager, ASC (Remote) position, which I discovered on LinkedIn. With over 10 years of project management experience, particularly in the healthcare and medical device sectors, I am confident that my skills in managing complex implementations and coordinating cross-functional teams align perfectly with the requirements of this role.

In my previous roles, I have successfully managed the end-to-end implementation of solutions for numerous hospitals and clinics. This includes coordinating the deployment of medical imaging systems, integrating data from medical devices (DICOM, HL7), and developing patient portals. I am adept at working with both internal teams, like supply chain and engineering, and external customers to ensure a seamless implementation experience, a key responsibility outlined in your job description.

My background includes leading projects that require significant logistical coordination and stakeholder education, similar to the needs of supporting ASC Regional Managers. I excel at leading without direct authority, articulating clear roles and responsibilities, and ensuring projects adhere to established processes. I am passionate about leveraging my experience to contribute to Stryker's mission of improving patient and healthcare outcomes.

I am eager to discuss how my adaptive project management approach and customer-facing experience can benefit Stryker. Thank you for your time and consideration.

Sincerely,

Juan Garcia
