Lensa Hiring Team

AssistRx

SUBJECT: Application for Project Manager - Healthcare at AssistRx

Dear Lensa Hiring Team,

I am writing to express my keen interest in the Project Manager - Healthcare role at AssistRx, which I discovered on LinkedIn. With over 10 years of experience managing complex, client-facing software implementation projects, particularly within the healthcare and pharmaceutical-support sectors, I am confident that my skills align perfectly with the requirements of this position.

My background includes extensive experience leading the full software development lifecycle for SaaS and enterprise applications. I am adept at managing technical integrations, including APIs and secure file transfers, and collaborating closely with cross-functional teams of business analysts, developers, and QA engineers to translate client needs into robust technical solutions. My proficiency in Agile, Scrum, and SAFe methodologies ensures adaptive and efficient project execution, from initial discovery and requirements gathering to final delivery and support.

Throughout my career, I have focused on building strong client relationships, serving as the primary point of contact and a trusted advisor during implementations. I have a history of delivering projects that not only meet technical specifications but also reduce administrative burdens and improve user workflows, resonating with AssistRx's mission to make a difference in patients' lives. I am excited by the opportunity to bring my technical project management expertise and passion for healthcare innovation to the AssistRx team.

Thank you for your time and consideration. I have attached my resume for your review and welcome the opportunity to discuss my qualifications further.

Sincerely,

Juan Perez
