Optomi Hiring Team

Optomi

SUBJECT: Application for Scrum Master at Optomi

Dear Optomi Hiring Team,

I am writing to express my enthusiastic interest in the Scrum Master position for your client in Orlando, as advertised on LinkedIn. As a certified Scrum Master (A-CSM, CSM, SAFe) with over 8 years of experience leading teams in data-centric and analytics-driven environments, my background is an ideal fit for this role.

My career has been dedicated to championing Agile best practices to build high-performing teams. I have extensive experience facilitating all Scrum ceremonies, coaching teams on Scrum and Kanban, and proactively removing impediments to ensure continuous delivery. For example, as Chief Scrum Master at Globant, I led five scrum teams in building a data warehouse, data lake, and Power BI solutions, directly aligning with your need for a leader in a data-centric environment.

I am proficient with JIRA, data management concepts, and DevOps practices. My experience includes projects utilizing AWS for data-intensive applications, such as developing a voice-to-text platform and integrating medical imaging data. I excel at collaborating with Product Managers to maintain a clear backlog and fostering a culture of transparency, accountability, and continuous improvement.

I am confident that my skills in coaching, facilitation, and conflict resolution, combined with my technical background in data environments, will allow me to make a significant contribution to your client's team. I am excited by the opportunity to work on-site in Orlando and help build innovative data assets.

Thank you for your consideration. I look forward to discussing this opportunity further.

Sincerely,

Sebastian Ochoa Alvarez
