STO Building Group Hiring Team

STO Building Group

SUBJECT: Application for Traveling Senior Project Manager (Mission Critical) at STO Building Group

Dear STO Building Group Hiring Team,

I am writing to express my keen interest in the Traveling Senior Project Manager (Mission Critical) position. With over 15 years of experience managing complex, large-scale technical projects for leading global companies, I have a strong foundation in the rigorous lifecycle management required for mission-critical initiatives.

My background includes directing multifaceted infrastructure projects, such as a large-scale data center migration from on-premise to Google Cloud, and managing cloud infrastructure deployments across AWS, GCP, and Azure. These experiences have honed my skills in areas directly transferable to construction project management, including meticulous planning, financial oversight, vendor procurement and management, and rigorous schedule and quality control.

I have successfully led globally distributed teams of over 100 personnel, managed multi-million dollar budgets, and maintained excellent working relationships with clients, vendors, and executive stakeholders to ensure project objectives are met and exceeded. My expertise lies in managing the full project lifecycle, from initial planning and RFP response to execution, risk mitigation, and final close-out.

I am confident that my adaptive approach and extensive experience in delivering complex infrastructure projects make me a strong candidate to contribute to the success of your mission-critical construction projects. Thank you for your time and consideration. I look forward to discussing my qualifications further.
