Hiring Manager

CitiusTech

SUBJECT: Application for Senior Technical Project Manager at CitiusTech

Dear Hiring Manager,

I am writing to express my keen interest in the Senior Technical Project Manager position at CitiusTech, which I discovered on LinkedIn. CitiusTech's mission to accelerate the transition to a human-first, digital healthcare ecosystem deeply resonates with my professional experience and passion for leveraging technology to solve critical industry challenges.

As an adaptive Senior Technical Project Manager with over 10 years of experience, I have a strong background in the healthcare technology sector. I have successfully led the end-to-end delivery of complex projects, including EHR-integrated solutions, patient data portals using DICOM and HL7 standards, and voice-to-text applications for clinicians. My experience aligns directly with your need for a professional who can provide healthcare consulting, translate business needs into detailed technical requirements, and manage deliverables to timeline and budget.

My technical acumen includes hands-on experience with Java, Python, and cloud platforms like AWS, which has been instrumental in leading development teams and architecting robust solutions. I excel at supervising teams, managing project constraints, and providing clear, data-driven status reports to executive stakeholders. My background in vendor analysis and system implementation ensures I can identify and execute opportunities for optimization and growth, driving tangible value for both the client and the organization.

I am confident that my blend of healthcare industry knowledge, technical leadership, and project management expertise makes me an excellent candidate to contribute to your team. I am eager to help CitiusTech inspire new possibilities for the health ecosystem and would welcome the opportunity to discuss my qualifications further.

Sincerely,

Sebastian Ochoa Alvarez
