Hiring Manager

Black & Veatch

**SUBJECT:** Application for Project Engineering Manager at Black & Veatch

Dear Hiring Manager,

I am writing to express my strong interest in the Project Engineering Manager position at Black & Veatch, as advertised on LinkedIn. Your company's century-long commitment to solving humanity's most significant challenges through sustainable infrastructure is inspiring, and I am eager to contribute my project leadership skills to such a meaningful mission.

With over 10 years of experience managing complex, large-scale technical projects from conception through completion, I have a robust background in supervising engineering teams and ensuring project success. My foundation in Systems Engineering, combined with extensive experience in managing budgets, schedules, quality, and risk, aligns directly with the core responsibilities of this role. I excel at translating complex technical requirements into actionable project plans and leading teams to execute them flawlessly.

Throughout my career, I have been responsible for interfacing directly with clients and C-level stakeholders, managing change, and supporting business development through proposal creation and technical analysis. My adaptive approach to project management, utilizing both Agile and traditional frameworks, has enabled me to successfully deliver projects across diverse industries, including for clients like Royal Caribbean and Dick's Sporting Goods, consistently meeting technical and financial objectives.

I am confident that my expertise in project controls, technical team supervision, and stakeholder management are highly transferable and would allow me to quickly become a valuable asset to your Technology, Commercial & Industrial team. I am excited by the prospect of applying my skills to the cutting-edge work you are doing in advanced manufacturing and generative AI computing infrastructure.

Thank you for considering my application. I look forward to the possibility of discussing how my experience can support the continued success and innovation at Black & Veatch.

Sincerely,

Sebastian Ochoa Alvarez
