Hiring Manager

Insight Global

SUBJECT: Application for Scrum Master at Insight Global

Dear Hiring Manager,

I am writing to express my keen interest in the Scrum Master position with Insight Global, as advertised on LinkedIn. With over 10 years of experience leading Agile teams, particularly within the healthcare sector and other highly regulated environments, my background aligns perfectly with the requirements for your healthcare client's critical technology initiatives.

My experience includes serving as a Project Manager and Scrum Master for multiple hospitals and clinics at Mango-Soft, where I led the delivery of projects involving medical imaging integration, surgery event management, and voice-to-text systems for clinicians. This hands-on experience has given me a deep understanding of the unique compliance, regulatory, and operational demands of the healthcare industry.

As a Certified SAFe 6 Agilist and Advanced Certified ScrumMaster (A-CSM), I have a robust command of Agile and SAFe principles. I have successfully facilitated all Scrum ceremonies, managed backlogs and sprints using Jira, and participated in PI planning to drive enterprise-level objectives. My focus is always on removing impediments, fostering a culture of continuous improvement, and enabling teams to achieve high velocity and on-time delivery.

I am adept at guiding teams through complex technical projects like the cloud migrations and system upgrades mentioned in the job description, and I am confident in my ability to champion agile best practices within your client's organization. I am eager to bring my servant leadership and expertise in compliance-driven delivery to your team.

Sincerely,

Sebastian Ochoa Alvarez
