Centric Consulting Hiring Team

Centric Consulting

SUBJECT: Application for Project Manager – Life Sciences at Centric Consulting

Dear Centric Consulting Hiring Team,

I am writing to express my enthusiastic interest in the Project Manager – Life Sciences position. Your company's principles of enjoying your work, having fun, and doing great work deeply resonate with my own professional philosophy. My career has been built on fostering collaborative environments that deliver exceptional results, and I am drawn to Centric's mission to provide "unmatched experiences."

With over 10 years of experience managing complex IT projects, my background is strongly aligned with the requirements of this role, particularly my specialization in the healthcare and medical device sectors. At Mango-Soft, I led the end-to-end delivery of medical solutions for multiple hospitals, including a medical imaging integration using DICOM standards and a patient portal, projects that required a deep understanding of clinical workflows and data handling in a regulated environment.

My experience covers all aspects of the job description, including:

- **SDLC & Regulated Environments:** I have extensive experience managing the full Software Development Life Cycle (SDLC) and delivering system solutions for clients in regulated industries, aligning with the principles of GxP and Computer System Validation (CSV).
- **Project Controls:** I have a track record of successfully managing scope, budget, schedule, and resources for multiple simultaneous projects, using tools like Jira, Confluence, and MS Project.
- **Leadership & Mentoring:** In my role as a Chief Scrum Master, I mentored and led other project leaders, establishing best practices and ensuring consistent delivery quality across large, matrixed organizations.

I am confident that my adaptive project management approach and my direct experience in the Life Sciences space would allow me to contribute significantly to your team and help deliver the unmatched experiences your clients expect. Thank you for your time and consideration. I look forward to the possibility of discussing this opportunity further.

Sincerely,

Andres Jimenez
