Hiring Manager

AdventHealth Central Florida

SUBJECT: Application for Project Manager II at AdventHealth Central Florida

Dear Hiring Manager,

I am writing to express my keen interest in the Project Manager II position at AdventHealth Central Florida, as advertised on LinkedIn. With over 10 years of project management experience, including a significant focus on the healthcare sector, I am drawn to AdventHealth's mission of providing whole-person care and feel my professional background is strongly aligned with the values and requirements of your team.

In my previous roles, I have been responsible for independently leading strategic initiatives from scoping through to successful execution. This includes managing complex projects for healthcare organizations, where I oversaw the integration of medical imaging (DICOM) and patient data (HL7) systems, launched patient portals, and improved clinical workflows. I am adept at managing the key project constraints of cost, schedule, and quality, while ensuring effective communication and engagement with all stakeholders, from technical teams to senior executives and clinical leaders.

My approach is adaptive, utilizing both Agile and traditional methodologies to best fit the project's needs. I am committed to translating complex requirements into actionable plans and delivering solutions that enhance operational efficiency and support mission-critical services. I am confident that my experience in delivering impactful technology solutions within the healthcare space will allow me to contribute significantly to AdventHealth's purpose-minded team.

Thank you for considering my application. I look forward to the opportunity to discuss how I can help extend the healing ministry of Christ through dedicated and effective project management.

Sincerely,

Sebastian Ochoa Alvarez
