Hiring Manager

HaloMD

SUBJECT: Application for Technical Project Manager - Data & Analytics at HaloMD

Dear Hiring Manager,

I am writing to express my strong interest in the Technical Project Manager – Data & Analytics role at HaloMD, as advertised on LinkedIn. With over 10 years of experience leading complex technical projects, including more than four years focused specifically on data, analytics, and business intelligence solutions within the healthcare and finance sectors, I am confident I possess the skills and expertise to drive data-driven decision-making and support HaloMD's growth.

In my previous roles, I have successfully led the end-to-end delivery of data-centric initiatives, from data warehouse and BI dashboard implementations to cloud migrations and AI-driven applications. I have direct experience working with healthcare data systems, including projects involving EMR/EHR data integration, which required a deep understanding of security and regulatory standards like HIPAA. My technical acumen includes proficiency in SQL, ETL processes, and utilizing platforms such as Power BI, AWS, and GCP to translate business requirements into actionable technical deliverables.

As a certified SAFe Agilist and Advanced Certified ScrumMaster (A-CSM), I excel at facilitating Agile ceremonies, managing backlogs in tools like Jira and Azure DevOps, and ensuring transparent communication with all stakeholders, from data engineers to executive leadership. I am adept at managing project scope, risks, and timelines to ensure alignment with strategic goals and organizational performance metrics.

My background in managing cross-functional teams to deliver high-impact data projects aligns perfectly with the requirements of this role. I am eager to bring my passion for technology and healthcare to your team and contribute to HaloMD's mission. Thank you for your time and consideration.

Sincerely,

Sebastian Ochoa Alvarez
