SUBJECT: Application for Mechanical (MEP) Construction Project Manager role

Dear Hiring Manager,

I am writing to express my keen interest in the Traveling Mechanical (MEP) Construction Project Manager position I discovered on LinkedIn. With over 10 years of experience leading large-scale, technically complex projects from initiation through closeout, I have a strong foundation in the core competencies required for this field-forward leadership role.

Throughout my career, I have been fully responsible for project execution, including managing budgets, controlling costs, ensuring quality, and adhering to strict schedules. I have extensive experience overseeing the performance of large, distributed cross-functional teams, similar to managing subcontractors, and coordinating activities to ensure seamless integration and on-time delivery of project milestones.

My expertise lies in full lifecycle project management, risk mitigation, and clear communication with all stakeholders, from technical teams to C-level executives. I am highly proficient with project management software and an adaptive, hands-on leader dedicated to ensuring all work meets project specifications and safety standards. The opportunity to apply my project management skills in a dynamic, 100% travel environment is an excellent match for my career goals. I am confident I have the leadership and problem-solving abilities to excel in this role.

Thank you for your time and consideration. I look forward to discussing how my background in managing complex projects can benefit your team.

Sincerely,

Sebastian Ochoa Alvarez
