Codeworks IT Careers

SUBJECT: Application for Project Manager at Codeworks IT Careers

Dear Hiring Manager,

I am writing to express my strong interest in the Project Manager position at Codeworks IT Careers, as advertised on LinkedIn. With over 12 years of experience leading large-scale, enterprise-wide application development projects, my background aligns perfectly with the qualifications you are seeking.

Throughout my career, I have successfully managed the complete project lifecycle, from initial planning and creating key documentation like project charters and work plans, to execution and delivery. My expertise spans standard project management methodologies as well as adaptive Agile frameworks like SAFe and Scrum, enabling me to guide cross-functional teams toward key milestones while effectively managing risks, scope, and dependencies.

I excel at collaborating with and influencing stakeholders at all levels, from C-level executives to technical teams, ensuring project outcomes are tightly aligned with strategic business goals. My background includes managing projects in finance, retail, healthcare, and hospitality, leading globally distributed teams of over 100 engineers and delivering complex solutions involving cloud migrations (AWS/GCP), AI integrations, and system modernizations.

My certifications, including SAFe 6 Agilist, Advanced Certified ScrumMaster (A-CSM), and Google Project Management, underscore my commitment to best practices. I am confident that my skills in strategic planning, risk management, and fostering collaborative team environments will allow me to make a significant contribution to your client's success.

Sincerely,

Sebastian Ochoa Alvarez
