Cristina Curp

HS Connect

SUBJECT: Application for Project/Program Manager at HS Connect

Dear Cristina Curp,

I am writing to express my enthusiastic interest in the Project/Program Manager position at HS Connect, which I discovered on LinkedIn. Your mission to improve the quality of life for those with Hidradenitis Suppurativa through patient advocacy and impactful programs deeply resonates with my professional and personal commitment to leveraging technology and project management for community wellness.

With over 10 years of experience managing complex, mission-driven initiatives, I have a strong background in the healthcare and wellness sectors. At Mango-soft, I led the development of patient portals and clinical support tools, directly improving physician workflows and patient access to care. My expertise aligns with your key requirements, including managing projects from conception to completion, overseeing budgets, and reporting progress to leadership and sponsor stakeholders.

I thrive in the fast-paced, agile environments you describe. My experience ranges from founding a SaaS company to leading large-scale projects in consulting, giving me an entrepreneurial mindset and the ability to be a proactive, self-starting problem-solver. I am skilled in using adaptive methodologies to navigate challenges and deliver creative, effective solutions that align with strategic goals.

My ability to lead cross-functional teams and manage multiple initiatives simultaneously will allow me to help HS Connect launch and execute new programs effectively. I am eager to bring my background in project management and passion for healthcare advocacy to your team. My attached resume provides more detail on my qualifications.

Sincerely,

Sebastian Ochoa Alvarez
