Hiring Manager

Vilnius-based Financial Technology Company

**SUBJECT:** Application for Project Manager at Vilnius-based Financial Technology Company (via Twine)

Dear Hiring Manager,

I am writing to express my keen interest in the part-time Project Manager position I found on LinkedIn, posted by Twine. My experience in leading the end-to-end development of web and digital applications with complex backend functionalities aligns perfectly with the requirements for your stock screening website project.

With over 10 years of experience managing remote, cross-functional teams of developers and designers, I have a strong record of delivering projects on time and within budget. I am an expert in a range of project management tools, including Jira, Asana, and Slack, which are essential for effective remote collaboration. In a previous role, I led the revamp of the Dick's Sporting Goods e-commerce platform, which resulted in a 40% performance improvement by focusing on Core Web Vitals and efficient team coordination.

My adaptive approach to project management combines the best of Agile and traditional methodologies to fit the project's specific needs. I excel at working independently, managing timelines and milestones, and providing clear, regular progress reports to stakeholders. I am confident I have the organizational skills and communication abilities to successfully guide your project from concept to delivery over the seven-month cycle.

I am excited about the opportunity to contribute to your company's success and am available to discuss my qualifications further at your convenience.

Thank you for your time and consideration.

Sincerely,
