Hiring Team

Halff

SUBJECT: Application for Senior Project Manager - Water and Wastewater Utilities at Halff

Dear Halff Hiring Team,

I am writing to express my strong interest in the Senior Project Manager - Water and Wastewater Utilities position at your Orlando office, as advertised on LinkedIn. Halff's 75-year history of improving communities through smart infrastructure solutions is impressive, and I am drawn to your people-focused culture.

With over 10 years of experience leading complex, large-scale projects for public and private sector clients, I have developed a robust skill set in managing the full project lifecycle. My background includes managing government contracts, overseeing infrastructure deployments, and ensuring projects are delivered within scope, on budget, and to the highest quality standards.

My experience in project reporting, financial forecasting, client invoicing, and leading technical teams directly aligns with the responsibilities outlined in your description. I have a strong record of managing staff, mentoring team members, and serving as the primary point of contact for clients to ensure clear communication and successful outcomes.

While my background is in technology-driven infrastructure, my adaptive project management approach is industry-agnostic and focused on fundamental principles of sound engineering and execution. I am confident I can apply my extensive project leadership experience to the water utilities sector and quickly become a valuable asset to your team.

I am eager to learn more about this opportunity and discuss how my experience in managing complex projects can contribute to Halff's continued success.

Thank you for your time and consideration.

Sincerely,
