Hiring Manager

Epic

**SUBJECT:** Application for Project Manager at Epic

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Project Manager position at Epic, as advertised on LinkedIn. Your mission to implement software that saves lives and improves patient care resonates deeply with my professional background and personal passion for leveraging technology to make a meaningful impact in the healthcare sector.

With over 10 years of experience managing complex software implementation projects for healthcare organizations, including hospitals and clinics, I have a strong record of leading teams through the full project lifecycle. My experience includes coordinating with clinical and administrative leadership, managing end-user training, and ensuring seamless go-live support, all of which are central to the responsibilities outlined in your job description.

I have successfully delivered critical systems such as imaging integration platforms, voice-to-text applications for clinicians, and patient data management solutions. I am adept at guiding cross-functional teams, managing stakeholder expectations, and ensuring projects are delivered on time and meet their intended goals of improving workflows and patient outcomes.

I am eager to bring my adaptive project management approach and dedication to healthcare innovation to the Epic team. The opportunity to contribute to the success of leading health systems like the Mayo Clinic and Johns Hopkins is incredibly compelling. I am fully prepared to meet the travel requirements and am excited about the prospect of relocating to Madison to join your team.

Thank you for considering my application. I look forward to the possibility of discussing how my skills and experience can contribute to Epic's important work.

Sincerely,

Sebastian Ochoa Alvarez
