Lumen Technologies

SUBJECT: Application for SR LEAD PROJECT MANAGER - PUB SEC at Lumen Technologies

Dear Fanchon Page,

I am writing to express my enthusiastic interest in the SR LEAD PROJECT MANAGER - PUB SEC position at Lumen Technologies, which I discovered on LinkedIn. With over 10 years of experience managing the full lifecycle of complex technical programs, including engagements within the public sector, I am confident that my skills in strategic planning, budget management, and team leadership are an excellent match for this role's requirements.

My background includes successfully managing proposals, contracts, and the end-to-end delivery of large-scale projects. For instance, I led the development and deployment of an integrated hardware and software solution for the Colombian Police, a project that required strict adherence to government contract specifications, cross-functional team coordination, and rigorous progress reporting. This experience, combined with my work on infrastructure projects such as datacenter migrations and multi-site network rollouts, has prepared me to handle the scope of telecommunications transitions and public sector demands at Lumen.

I am an expert in adaptive project management, utilizing Agile (SAFe, Scrum) and hybrid methodologies to ensure timely delivery and alignment with corporate objectives. My responsibilities have consistently involved developing detailed project plans, managing resource allocation, controlling budgets, and delivering clear status reports to C-level stakeholders.

I am deeply impressed by Lumen's mission to connect the world and empower business growth. I am eager to bring my experience in driving complex projects to your team and contribute to delivering outstanding results for your public sector customers. Thank you for your time and consideration. I look forward to discussing how I can contribute to Lumen's success.

Sincerely,

Sebastian Ochoa Alvarez
