Girish S

Jaitra Technologies

SUBJECT: Application for LIMS Project Manager at Jaitra Technologies

Dear Girish S,

I am writing to express my keen interest in the LIMS Project Manager position at Jaitra Technologies, which I discovered on LinkedIn. The opportunity to lead mission-critical projects for the Department of Homeland Security is an excellent match for my experience in managing complex technical implementations within highly regulated environments.

While my background is not in LabVantage specifically, I have over 10 years of experience as a Technical Project Manager leading the full lifecycle of data-sensitive software projects in healthcare, finance, and public safety. My work has involved managing system integrations, data migrations, and ensuring adherence to strict compliance and validation protocols, providing a strong foundation for the complexities of LIMS delivery. I am a U.S. Citizen and confident in my ability to pass the required DHS background investigation.

I excel at translating technical requirements into actionable plans and communicating progress to both technical teams and non-technical leadership. My expertise in Agile/Kanban, risk management, and financial oversight for government and commercial clients has consistently resulted in on-time, on-budget project delivery. I am eager to apply my adaptive project leadership skills to support your engagement with DHS.

Thank you for your time and consideration. I look forward to discussing how my experience can contribute to Jaitra Technologies.

Sincerely,

Sebastian Ochoa Alvarez
