HaloMD Hiring Team

HaloMD

**SUBJECT:** Application for Technical Project Manager - Data & Analytics at HaloMD

Dear HaloMD Hiring Team,

I am writing to express my strong interest in the Technical Project Manager - Data & Analytics position at HaloMD, as advertised on LinkedIn. With over 10 years of experience leading complex data-centric projects, particularly within the healthcare sector, my background aligns perfectly with the requirements of this role.

My career has been focused on managing the end-to-end delivery of data integration, analytics, and business intelligence initiatives. I have extensive experience translating business and regulatory needs—including those related to healthcare claims, EMR/EHR, and RCM—into technical specifications for data engineering and BI teams. I am proficient with the essential tools for this role, including SQL, ETL processes, and BI platforms like Power BI and Tableau, and have managed projects on cloud platforms like AWS and GCP.

I am an expert in facilitating Agile/Scrum ceremonies and managing project backlogs in JIRA and Confluence to ensure transparent communication and timely delivery. My experience includes leading cross-functional technical teams, tracking KPIs for executive reporting, and ensuring all projects adhere strictly to data governance and HIPAA compliance standards. I am confident that my technical project management skills and deep understanding of the healthcare data landscape will allow me to contribute significantly to HaloMD's mission.

Thank you for your time and consideration. I am eager to discuss how my experience can help drive data-driven decision-making and support HaloMD's continued growth.

Sincerely,  
Juan Garcia
