Hiring Manager  
Centric Consulting

**SUBJECT:** Application for Project Manager – Life Sciences at Centric Consulting

Dear Hiring Manager,

I am writing to express my strong interest in the Project Manager – Life Sciences role at Centric Consulting, as advertised on LinkedIn. Your company's principles of enjoying your work, having fun, and doing great work deeply resonate with my own professional philosophy. With over 10 years of project management experience, I am confident I possess the skills to deliver the "unmatched experiences" you strive for.

My background includes extensive experience managing complex IT projects within the Healthcare and Medical Device sectors. I have successfully led the full Software Development Life Cycle (SDLC) for critical system implementations, such as delivering a voice-to-text solution for surgical reporting on AWS, managing the development of a DICOM medical imaging portal, and implementing nurse-call systems in hospital environments. This hands-on experience in a regulated industry has prepared me to effectively navigate the specifics of the Life Sciences space.

I am an expert in creating and managing detailed project plans, defining schedules, and controlling scope, budget, and resources for matrixed, globally-distributed teams. My adaptive approach combines the best of Agile and traditional methodologies to lead risk identification, resolve issues, and deliver clear status reports to PMO and executive stakeholders. I am committed to mentoring teams and fostering a collaborative environment to achieve shared success.

I am eager to bring my expertise in healthcare IT project delivery to Centric Consulting and contribute to your clients' success in the Life Sciences field. Thank you for your time and consideration.

Sincerely,

Sebastian Ochoa Alvarez
