Leidos Hiring Team

Leidos

SUBJECT: Application for Agile Scrum Master at Leidos

Dear Leidos Hiring Team,

I am writing to express my keen interest in the Agile Scrum Master position at Leidos, as advertised on LinkedIn. With over 10 years of experience leading software delivery initiatives for globally distributed teams, I am confident I possess the skills and expertise to help your teams succeed and contribute to your mission of solving high-stakes problems.

As a certified Scrum Master (A-CSM, CSM) and SAFe Agilist, my background is rooted in facilitating core Agile ceremonies, coaching teams in relentless improvement, and removing impediments to enhance performance, quality, and velocity. I have a strong record of partnering with Product Owners to manage backlogs and guide teams toward meeting their iteration objectives, working extensively with tools like Jira and Confluence.

My experience spans leading diverse teams in complex technical environments, including cloud platforms (AWS, GCP), AI integration, and full SDLC projects. I am adept at fostering communication and collaboration within geographically dispersed teams, ensuring alignment and protecting them from scope creep.

I am excited by Leidos's culture of innovation and the opportunity to "build things smarter." I am eager to bring my expertise in Agile methodologies and servant leadership to your team. Thank you for your time and consideration. I look forward to discussing how I can contribute to Leidos's success.
