SUBJECT: Application for Technical Project Manager at Company Confidential

Dear Hiring Manager,

I am writing to express my keen interest in the Technical Project Manager contract position for the Core360 EHR implementation, as advertised on LinkedIn. With over 10 years of experience leading complex technology projects in the healthcare sector, I am confident in my ability to drive this transformative EHR rollout to a successful conclusion.

My background includes extensive hands-on experience managing the full lifecycle of healthcare IT projects, including system integrations that utilize HL7 and DICOM standards—directly aligning with the requirements and bonus qualifications for this role. I have successfully delivered patient data portals, medical imaging platforms, and voice-to-text applications for hospital systems, which has given me a deep understanding of clinical workflows and the critical nature of EHR systems.

I am an expert in guiding implementation teams through planning, execution, UAT, and go-live, using adaptive hybrid and Agile methodologies to manage risks and ensure alignment with enterprise goals. My experience includes reporting directly to C-level stakeholders and PMOs, ensuring clear communication and timely delivery on key metrics. I am eager to apply my skills to support your 3,600+ professionals and improve care delivery across your 8 markets.

Sincerely,

Sebastian Ochoa Alvarez
