Sarah Davis

LVI Associates

**SUBJECT:** Application for Senior Bridge Project Manager at LVI Associates

Dear Sarah Davis,

I am writing to express my strong interest in the Senior Bridge Project Manager position at LVI Associates, as advertised on LinkedIn. While my professional background is rooted in leading complex technology programs, I am drawn to this opportunity by the core responsibilities of leadership, project management, and business development, which have been central to my career.

With over 10 years of experience managing large-scale, multi-million dollar projects, I have a comprehensive background in overseeing the full project lifecycle, from proposal development and scope definition to budget management, scheduling, and quality assurance. My career has involved leading and mentoring large, multidisciplinary teams of over 100 professionals across global locations, coordinating with diverse internal and external stakeholders to ensure alignment and project success.

My experience includes managing project constraints, leading proposal efforts, planning resources, and presenting progress to C-level stakeholders, all of which are key requirements for this role. I am an adaptive leader, skilled in both Agile and traditional project management methodologies, with a focus on delivering high-quality results and fostering team growth.

I am confident that my extensive project management expertise and leadership skills are highly transferable and would allow me to quickly become a valuable asset to your Transportation and Structural Engineering practice. I am eager to learn more about this opportunity and discuss how my background can contribute to shaping the future of Florida's infrastructure with your team.

Sincerely,

Sebastian Ochoa Alvarez
